

RAJ KAPOOR GAUTAM

MERN Stack Developer

+91-7392822658 | rajkapoor200d@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 3.5+ years of experience, focused on the MERN stack (React.js, Node.js, Express.js, MongoDB) for building responsive, API-driven web applications, alongside strong experience in Laravel, PHP, and WordPress. Skilled in REST API development, cloud deployments, and Agile delivery. Proven track record in application performance improvement, production support, debugging, and cross-functional collaboration using Docker, CI/CD, and modern deployment workflows.

TECHNICAL SKILLS

FRONTEND

ReactJS, Redux, JavaScript (ES6), HTML5, CSS3

ADDITIONAL

Laravel, PHP, WordPress

HOSTING PLATFORMS

AWS, Hostinger, Vercel, Netlify, cPanel

DATABASE

MySQL, MongoDB, PostgreSQL

AI TOOLS

ChatGPT, Claude AI, Cursor AI, Codex

BACKEND

Node.js, Express.js, RESTful APIs

DEPLOYMENT TOOLS

Docker, Docker Compose, Git, GitHub, CI/CD Pipelines

ANALYTICS & TRACKING

GTM, GA4, Google Ads, Conversion Tracking, DataLayer, Pixel Integration

DEVELOPMENT TOOLS

Linux, Postman, VS Code, ClickUp, Jira, API Integration, Debugging

PROFESSIONAL EXPERIENCE

Software Engineer | Dipole Tech Innovation Pvt. Ltd., Mohali

March 2024 – June 2026

- Developed and maintained scalable web applications using ReactJS, Node.js, Express.js, MongoDB, Laravel, PHP, WordPress, WooCommerce, and REST APIs.
- Built and consumed RESTful APIs with Node.js and Express.js to power dynamic frontend features and third-party integrations.
- Built custom WordPress solutions including websites, Elementor designs, themes, and plugins, and integrated donation platforms such as GiveWP, FundraiseUp, and Donorbox.
- Integrated payment gateways including Stripe, Authorize.Net, Google Pay, and ACH, along with third-party API services.
- Managed production support, debugging, troubleshooting, database optimization, and application performance improvements.
- Handled deployments and hosting environments using AWS, Hostinger, Vercel, Netlify, cPanel, Git, CI/CD workflows, and Docker-based setups.
- Implemented analytics solutions using GTM, GA4, Google Ads conversion tracking, DataLayer, and Pixel integrations.

Associate Software Engineer | Laitkor Consultancy Services Pvt. Ltd., Lucknow

July 2022 – Nov 2023

- Developed web applications using ReactJS, Laravel, PHP, JavaScript, MySQL, and RESTful APIs.

- Created Python Flask APIs for Shopify automation, AI-based image processing, background removal, and product image enhancement workflows.
- Developed Shopify product management features including image updates, transformations, and automated processing.
- Built Alexa Skills and integrated third-party APIs for automation and voice-based solutions.
- Worked on CRUD systems, debugging, optimization, testing, and Agile development processes.

KEY PROJECTS

Victor — Beauty Products Platform *(ReactJS, Redux)*

- Developed responsive frontend modules using ReactJS and Redux.
- Implemented authentication systems, dashboards, and CRUD functionality.
- Integrated REST APIs for dynamic product and user management.

STy-AI-Studio *(ReactJS, Python, Flask)*

- Developed a Shopify admin application for AI-powered image processing.
- Implemented image background removal using Python, OpenCV, and Flask APIs.
- Integrated ReactJS frontend modules with backend APIs.

Skrraggle — Donation Management Platform *(ReactJS, Node.js)*

- Developed a React.js-based donation management platform enabling admins to create and manage donation campaigns, forms, widgets, and buttons.
- Built dynamic embeddable components with generated embed codes for seamless integration into external websites.
- Implemented donation tracking, donor management, analytics dashboards, and data export functionality to monitor contributions.

Adams Center — Donations Platform *(ReactJS, Node.js)*

- Developed and maintained a donation platform with seamless payment processing using Salesforce APIs.
- Integrated multiple payment methods including Google Pay, Apple Pay, and card payments for a secure donation experience.
- Implemented custom features such as campaign management, dynamic campaign display pages, and donation tracking.

Aviotix — Flight Booking Platform *(Laravel)*

- Developed a flight booking platform integrated with EaseMyTrip APIs to search, retrieve, and display real-time flight data.
- Built dynamic modules including blogs, testimonials, FAQs, and booking management features.
- Designed and implemented an admin panel for managing bookings, blogs, testimonials, and website content.

NADA India — Government (National Anti-Doping Agency) *(WordPress)*

- Developed and maintained the official NADA India website, ensuring high performance, security, and scalability.
- Implemented custom features and content management solutions to support anti-doping programs and awareness initiatives.
- Performed website and Linux server security audits based on NIC guidelines, identified vulnerabilities, and applied security fixes.

GTM Analytics & Tracking System *(GTM, GA4)*

- Implemented GTM and GA4 tracking systems for analytics and conversion monitoring.
- Configured custom tags, triggers, events, and DataLayer integration.
- Improved marketing campaign tracking accuracy using Google Ads integration.

EDUCATION

Master of Computer Applications (MCA) | Institute of Engineering and Technology, Lucknow — 2021

Bachelor of Computer Applications (BCA) | Dr. Rammanohar Lohiya Avadh University, Faizabad — 2018
